

ALLIANCE INCENTIVE PROGRAM

Guided by our **ultimate goal** of improving the health of our community through the development of innovative solutions and collaborations, we are excited to roll out our new Incentive Program.

Context: As Alliance moves into the final years of the DSRIP program, the emphasis on performance is paramount to success for our community.

Goal: To prepare our partners for the future delivery system, where reimbursements are tied increasingly to value, not volume.

How it will work: Through this program, our partners are eligible for support around new and exciting innovations and will collaborate with one another on specific performance measures. Two complimentary components:

The Transformation Fund

- Will reward partners' commitment and performance related to specific measurements.
- Partners who commit to similar measures will be organized in "Performance Teams" to work together to achieve collective success on those measures.
- Alliance will support these teams with facilitation and shared data to help achieve goals.
- The Transformation Fund will reward associated performance improvement.

The Innovation Fund

- An immediate source of support for our partners who are ready to get started on a project they believe will help them meet the performance measures.
- This fund will support start-up initiatives by making available "seed money" for those that qualify.
- Approved applicants will be placed on Transformation Fund "Performance Teams" as well
 - Applications will be accepted on a rolling basis and evaluated monthly.

How to Succeed

- Complete both applications: <http://allianceforbetterhealthcare.com/incentive-program/>.
- Alliance staff will work with you to identify all potential areas of performance measure success for your organization to optimize your applications.
- Alliance will facilitate "Performance Team" engagement and progress with analytics and subject matter expertise.
- Success across all organizations on Performance Teams will maximize rewards.

We are excited to work with you on this new program. Our partnership will create lasting change for the health of our community. Please visit our website for more information on the Incentive Program. We are also available to answer any questions: incentiveprogram@abhealth.us
